Dear Pasquale,

In order to ensure that we receive a complete report, we can exceptionally allow you an extension until 30 April to submit your final report.

Please remember that by this date also the compulsory audit of the project accounts has to be carried out. Therefore you should make sure that the missing documents from your partners are collected as soon as possible so that the auditors will have enough time to go through them.

Best regards  
Piia

Subject: Erasmus+ CBHE: Request of deferral the Final Report submission - TechReh Project, project submission number 561621-EPP-1-2015-1-IT-EPPKA2-CBHE-JP

Dear Piia,

I'm writing you to kindly ask a delay in the presentation of the final technical and financial reports of the Erasmus+ TechReh Project.

The delay is mainly due to the fact that some Partners have difficulties in sending us the required documents.

We are solving this issue by helping these Partners by email exchange, direct telephone and Skype contacts.

Some other Partners have changed their managers or operative staffs and they need further time in collecting the supporting documents.

For these reasons, we kindly ask you to postpone the deadline for submitting the final technical and financial reports on 30 April 2019.

I hope that you would accept our request.

Sincerely Yours,

Pasquale

For example, may we transfer unspent travel costs from a European partner to cover the overspent costs of Uzbek partners?

Dear Luca

We have provided Rosa with tickets reimbursement according prices that she declared in Uzbek Sum according Central Bank course in amount that we could remind to all Nukus partners. However it was ineligible according Unit cost rules. In this regards we need firstly reimbursement of the tickets Mrs. Narimbetova to us and only afterwards Nukus partners could request 194 Euro. But I am not sure that it will be eligible.

Dear Oral,

please find attached clarifications for the expenses reported on the sheet you gave us in Bruxelles.

The attached compressed folder contains an excel file (NukusClarifications.xlsx), explaining one by one the considered expenses. You will find also annexes containing the financial documents of those expenses.

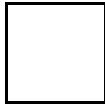

Since, after this further check, the amount were slightly changed, we will produce a new version of the overall expenses table, reporting the new amounts.

Regarding the sheet of the "expenses that were not reimbursed for 2016-2017", please consider that the amount of the ticket for the travel of Roza Narimbetova from Nukus to Tashkent and back of € 194 was actually delivered to Uzbekistan through PLUX together with the wire transfer of all the expenses of the meeting in Tashkent and Nukus (please see the breakdown table in Annex V). Regarding the other expenses that have not been yet reimbursed (travels of Gayrat and Oksana to Karshi and staff costs), you will receive the amount of Grant foreseen by the project and you can proceed to the reimbursement directly.

Please do not hesitate to contact me for further clarifications.

Subject: Re: PROBLEM ON FUNDING. NEED URGENT SOULTION.

Dear Oral,

Thanks for the appreciation.

Although we could not substitute to the grant holder, we wanted to provide you with a bit of information when the coordinator is so silent, not answering to any of your emails.

I strongly agree that partners are equal and should equally receive the budget corresponding to their work. I fully support your request for clarification.

Since the beginning of the project, I have raised regular concerns on the coordination and management of the project, these having consequences on the progress of our project.

At the Karshi meeting, I did again and requested justifications on the budget spent, in particular by the coordination team, but still haven't received any of them. Having numbers in a table is not sufficient.

Moreover, this is definitely not acceptable that expenses of UZ partners to travel to Karshi for our last consortium meeting were not covered by the project. The reason given was that there is no more money, which I cannot accept when the coordination team overspent by 54% their own allocated budget, thereby taking part of the UZ budget they are managing.

As you know, I was about to leave the project in July. The only reason I did not is that I still believe my role is to share my experience with you and support you in the development of new curricula in your country.

I hope you all know you have friends in France ...

Kind regards  
Véronique

As such, I am very shocked that UZ partners did not receive
